The Greenbackers, of Grayson co., will meet in convention in Litchfield next Monday.

JOHN B. GOWAN has been appointed postmaster at Hopkinsville, Ky. Successor Mrs. Burbridge.

The prohibition Executive Committee of this State has nominated Hon. Alex. Lusk of Hockeater county for Clerk of the Court of Appeals.

It would be wiser to sacrifice Capt. Henry than to sacrifice the Democratic party. Cast him overboard and save the ship.—*Bourling Green Democrat.*

In any of our friends desire to write to the "So called" Democratic nominee for Clerk of the Court of Appeals, they should address the letter thus "Captain Thomas Jefferson Henry, Salt River, Ky." A letter thus addressed will reach him sooner or later.

We learn that Rev. R. E. Orr, of the Methodist Episcopal Church South, and Rev. Wm. Dawson, of the United Baptist Church, are to have a debate at Lexington, Ky., on the subject of baptism and other doctrinal differences of their churches.

JAMES G. W. WILLIAMS, of Owensboro, one of the many candidates for Judge of the Superior Court, in this the first Judicial District, visited our town last Monday. Judge Williams is a genial and pleasant gentleman, and who claims wherever he goes—*Litchfield Southern.*

"There are just 100 Democratic papers, including the Independent Democrat," published in the State. Just one fourth, twenty-five of these, just to support Capt. Henry. Now, if one fourth of the party is thus dissatisfied, (and the percentage is unquestionably greater) it will not Henry's vote down so low as to make his election very uncertain.

The *Courier-Journal*, speaking of King's statement with reference to the Henry matter, said that "King was not only a thorough and consistent Democrat, but a gentleman whose veracity could not be questioned." When Mr. King makes an affidavit, however, and gives the case *dehors*, the *Courier-Journal* says, "We denounce it as a libelous lie. King, Tag and H. T. Tall throughout the State 'gave two'."—*Bourling Green Democrat.*

HON. E. D. WALKER is receiving encouragement in his Congressional aspirations wherever he goes. At Lebanon last Thursday night he had a large audience and made an excellent impression, being warmly and almost universally congratulated, and the positions taken by him very generally endorsed by his hearers. His speeches also well received and very generally endorsed. Mr. Walker is the coming man, and will make one of the ablest members of the next Congress.

JAMES H. W. WILLIAMS, candidate for Superior Court Judge, is abroad in the district. His personal worth and broad culture as a jurist will commend him to a kindly reception and favorable consideration at the hands of the bar and the people. The age of the fiery passions is past, and his legal attainments, chastened by age, reflection and meditation, will find ample and wise scope and verge on the Judicial bench, which would enable him, fittingly and gracefully, to retire from the honor and labor of an active law practice.—*Courier-Journal Post.*

"Tom" Henry has been troubled. He has now another peck. His trouble has been doubled since his known he belted Beck.

The Standard's best the Half-breed in the Pennsylvania Republican Convention last week, and a Don Cameron Ring ticket was nominated.

Know thyself may be a very good proverb, but there are some people who know of that would be know, nothing if that would they knew.

WHAT is the difference between a man suffering with a bone-felon and the keeper of the State penitentiary? One has a felon on his hand, the other has several felon on hand.

HON. JOHN W. CALDWELL, of Logan county, in a card to the *Litchfield Herald-Enterprise*, declines to become a candidate for re-election to Congress. He has served three terms.

MAJESTY is wading in Virginia. The colored Republicans of that State will hold a convention June 25th, to organize a union pure Republican party, and repudiate Mahone and the Read-Justices.

We understand that a letter mysteriously signed by Democrats of Ohio county has been forwarded to Capt. Henry, asking him to be here next Monday to meet Col. Jacob, who is advertised to speak here on that day.

The best evidence that Mr. Walker's speeches contain some important truths is evidenced by the fact that the Republican monkey is beginning to squeal. One of the said tribe at Lebanon squealed through the *Commercial* last Saturday.

This candidacy of Hon. E. Dudley Walker is attracting attention and calling out favorable comment from newspapers, politicians and public men all over the district, and better still, his candidacy is making an excellent impression on the masses of the voters of the district wherever he has been heard or his candidacy discussed. Walker is the right man for the place, and if he is elected, no man will ever regret having been his supporter.

Next Monday will be a big day in town. It is the first day of Circuit Court. Col. Jacob and Col. McHenry have appointments to speak here that day. We also understand that Capt. T. J. Henry has been invited, and hope he will be on hand as we always like to hear both sides of a question. No doubt the voters of the county will be out in mass and hear the contending candidates, and can then judge for themselves.

J. L. VANORR, of Davies county, has been pardoned by the Governor, and in an interview with the reporter of the *Owensboro Post*, he tells quite a different story from that other fellow about Warden Stone, exonerating him entirely from the charge of embezzlement. One of the editors of this paper has known Captain Stone well and favorably for many years, and does not believe it possible for him to be so cruel as reported by one of the convicts.

The *Chenango* whatever that is, self-constituted, college bred, simple minded youth, that tries to sell the *Ex-Ex* is informed that we have back bone and common sense enough to attend to our own business, and conduct it on common sense principles. We have nothing to sell for any legitimate purpose, and such we conclude the management of candidates or politicians their tickets to us, and in this way was the Republican ticket of our county inserted, and so announced at the time and as the said *Chenango* young man goes the *HERALD* as an exchange, it is exceedingly strange he did not see it.

WE this week have the pleasure of announcing Hon. E. Dudley Walker, of Hartford, Ohio, candidate for Congress in this the Fourth Congressional District. Mr. Walker has been a member of the Litchfield Bar for several years, has attended and practiced in our Circuit Court, and has presided as special judge. So our people have had opportunities to learn of the ability of Mr. Walker as a lawyer, and to learn that he possesses the qualities to make a good representative in the halls of the National Congress, and in this light we see him, and believe him to be an elected, that our district would be well and faithfully represented. Being a citizen of a sister county, and having been associated with our people, we naturally have a claim upon our country—*Litchfield Southern.*

It is always a confession of weakness, to resort to abuse and reformation in any discussion. In this Henry matter there is no reason for concealing any thing. Those who oppose his election, do it honestly and fearlessly, and have no apology to make. If the *Ex-Ex* opinion sheets ever dared put forth an opinion that had not first been promulgated by the *Courier-Journal*, and would do it in the light of facts, and not be moved by passion and prejudice and a party spirit that makes them blind to the truth, they would with one voice, condemn the action of the State Committee in not suggesting to Henry the expediency and propriety of his resignation.—*Bourling Green Democrat.*

THE *Owensboro Messenger's* Whiteville correspondent gives an account of a reunion of the survivors of a family, some of whom live in this county, as follows: "A most happy event occurred at the residence of Mr. Wallace Haynes, on the 4th inst. It was the happy reunion of six brothers and sisters and brother-in-law who took supper together. Their ages aggregate over four hundred years. The names of the party are as follows: Spotswood Ellis, age 77 years; Rev. J. P. Ellis, age 70 years; Mrs. J. P. Ellis, age 70 years; W. K. Ellis, of Logan county, Illinois, age 67; Hiram Chapman, age 65 years; Mrs. Hiram Chapman, age 48. We think it doubtful whether any of our neighboring counties can produce such statistics as these.

The Democrats who have been denouncing as bullies those who refuse to support "Tom" Henry will leave to change their tactics when they read the article in this issue, from the *Mayville Eagle*, showing Henry up as a better of the worst order himself. The Democratic members of the Legislature of 1876 held a caucus to nominate a candidate for U. S. Senator. This is an office second to none but that of president in importance, political, and yet Capt. Thomas Jefferson Henry, after going into the caucus, which resulted in the nomination of Hon. J. B. Beck, belted and refused to vote for him. Mr. Beck is one of the ablest men the State has ever had, but at that time served several terms in the lower house of Congress, was regarded there as the best posted and ablest man in the State on National affairs, was nominated by the caucus, not as a result of bargains and sales and corrupt combinations, but upon his merits, and qualifications which were well known and understood, he was fairly and honorably chosen, and he not only had always conducted himself gently up to that date, but he continued to do so until he was elected and even until the present day, and has since been re-elected without opposition. Capt. Henry was the representative of Morgan county in the Legislature at the time, and his belting was thereby magnified. The State is laid off into one hundred Legislative Districts, and Capt. Henry was this the representative of the one hundredth part of the Democratic party, and hence in his action, one per cent. of the party belted, which is not the case with an individual voter at the polls, who is only one in about 100,000 voters. It seems that Capt. Henry's friends are stopped from crying out, better, at those who refuse to support him, for unlike Mr. Beck, he had been tried and found wanting three times before, he got his nomination not by reason of his eloquence, his reputation, his experience or superior things, but by reason of combinations, bargains, sales, coalitions, etc., and unlike Mr. Beck he did not conduct himself soberly and gently, but got on a projected pedestal, and belted overboard and degraded himself by associating with bad characters and visiting places of ill repute. In addition to that, the office of Clerk of the Court of Appeals has nothing like the political importance like that of U. S. Senator. In refusing to support Capt. Henry, we say him off in his own coin, and at the same time preserve our manhood, self-respect and party principles.

## Then and Now.

The *Litchfield Southern* of last week contained the following card from Prof. W. B. Hayward on the Henry matter:—

I write to you that in my opinion, and I think I know whereof I affirm—a very large majority of the Democrats of Ohio county, propose to abide by the decision of the Democratic Central Committee of Kentucky in the Henry matter and will most certainly support him for Clerk of the Court of Appeals. Do not be misled by any of the *Ex-Ex* in the county. The feeling for Henry is growing because of a belief on the part of a great many that he is being persecuted without sufficient reason. There seems to be a relentless determination on the part of some, not only to destroy Henry, but also to make a breach in the historic impregnable fortress of the Kentucky Democracy. I believe the assaults will be repulsed. It is a critical period in the history of the Democratic party—it is passing through an ordeal, and will result in the elimination of the base, leaving one remainder clear and pure. The Democrats are now sitting for the mastery. I have no fear of the result. The faithfully true Democrats of Ohio county will bear their standard—"Full high advanced"—with the prescription, Henry and Victory.

W. B. HAYWARD.

We have a high regard for Prof. Hayward, he is our warm, personal friend but it seems to us that a man living in a glass house has been for some time should be careful how he throws stones.

Is the opposition to Capt. Henry any more reckless than the Professor's opposition to Capt. Joe for Commonwealth's Attorney two years ago. Is it any more of a persecution? Will it make any greater breach in the historic fortress of Democracy? Is it a more critical period in the history of the Democratic party now, than in 1882? Are those who got eliminated two years ago by opposing Joe Noe, any purer than those opposing Henry now? Are principles not men, striving for the mastery now, more than in 1882? To each question we emphatically say NO, not as much.

## Just so, the State says.

While it is true that there are some Democrats in this county that will support Col. Jacob, it is apparent to us that there are a great many that will not vote for Capt. Henry. The cause that has brought about this condition of things is well known, and however much it is to be deplored, there is no use in any attempt of concealment, and unless Democrats go actively to work, our majority will be sadly reduced at the next election.—*Shelby Sentinel.*

## Hon. E. D. Walker for Congress.

ELIZABETHTOWN, KY., May 15th, 1882.

HON. E. D. WALKER, of Hartford, Ohio, announced himself as a candidate for Congress to-day. He was named at the court house. He dwelt considerably upon the tariff question and upon the general topics of the day. He made a telling and logical speech in every particular, and made a deep impression upon the citizens of the county. Mr. Walker is a man of independent and indelible character, and if elected will doubtless make a noble representative. He will not doubt carry this county.—*Ex-Ex in Litchfield Southern.*

## In an Able and Impressive Manner.

HON. E. DUDLEY WALKER, of Hartford, Ohio, candidate of this Congressional District, addressed a large number of persons at the court house to-day in an able and impressive manner, discussing the political issues of the times. If Knott does not enter the field he will doubtless carry the county by a large majority.—*Elizabethtown Correspondence Courier-Journal.*

## Henry's History.

Col. Wallace Gracie edited a paper for many years at Mt. Sterling, Ky., which is in the region of country where Capt. Henry lives, and is acquainted and familiar with Capt. Henry's history. In the *Ex-Ex* of last week he talks editorially as follows:

Capt. Henry is a man addicted to drunkenness and his kindred vices. His pride of abstinence for the future is not worth the paper it is written upon. From the fact that, on three several occasions in the past, when an aspirant for position, he gave precisely the same story, and when voted and kind of others he desired, only to violate it after he had accomplished his object. He was, to start with, a confirmed drunkard. As an information to reformation, his friends, on his solemn assurance, "So help me God," that he would never again touch a drop of intoxicating liquor, made him Clerk of the Morgan Circuit Court. He behaved himself and attended industriously to the duties of his office during the first years of his term, and then relapsed into his old habits. Of course, under such circumstances, his reformation was not to be regarded. Under the persuasion of his friends he again "reformed" and kept "reformed" until he was attacked with a desire to go to the Legislature. Here his "So help me God" pledge came into play, and he was elected only to suffer another relapse on his arrival at Frankfort, and to continue relapsing during almost the entire session. This plunging and relapsing had become a habit, and he was not only a disgrace to the good people of Morgan county, and his only hope for office lay outside of that county. Mat Adams was Clerk of the National House of Representatives, and to him he undertakes to be accompanied by the everlasting "So help me God" pledge—for a position. Mat, not satisfied with his request, and gave him a sober lecture, and here again he belated himself for some time, but the inevitable relapse came and he had to give up the position. As we said last week, he has given us a taste of his quality as a candidate. A tree must be judged by its fruits, and the fruits of Capt. Henry's life clearly prove that he is incapable of keeping a pledge of total abstinence. Hence we place no faith in his pledges.

## Hon. E. D. Walker Winning Golden Opinions.

LEBANON, KY., May 15th, 1882.

HON. E. D. WALKER, of Ohio, as a candidate for Congress Fourth District of Ky., addressed a large and enthusiastic number of our people, last Tuesday evening, the audience was very much pleased with his forcible arguments in behalf of the Democratic party, and his original jokes; he will be a very formidable candidate; he has many friends in Lebanon, and Marion county.

## Woodward's Valley.

May 15th, 1882.

The farmers are about done planting corn and are planting a larger acreage this spring than common. We want to see more corn than we have had for the last few months. There will be about half a crop of corn planted in this neighborhood if the boys will cease their ravages. Some of the farmers have not planted at all, and will have to plant the corn in corn. The wheat crop is very promising here and if some misfortune do not befall it, there will be plenty for home consumption, and some to spare.

I forgot to mention the fact that Mr. John Hawley got stuck in on the seventh inst., he was passing through the barn-yard, about dusk, when it occurred. He is convalescing slowly at this writing.

The Democrats of the Valley are a unit to the county ticket, but cannot say that much for Capt. Henry. We are Democrats from principle and will not surrender honor and principle for Mr. Henry, nor anyone else, nor can we consistently support Col. Jacob, so you see we won't vote for the Clerk of the Court of Appeals.

I wish the largest greater circulation than ever before.

Mr. Tom Bond, who has been quite sick, is much better. Mrs. P. E. Kennedy is also better. Mr. Frank Kennedy is not expected to live, he has been ill for some time.

reprehensible. After Beck had triumphed over all dilatory and disorganizing tactics of himself, Bowles and others, and had become the regularly and fairly nominated candidate of the Democratic party, Captain Henry saw in his private conduct and under suspicious animosity to Mr. Beck, and his revolt against the decision of the caucus by which he was placed to abide, by refusing to vote for Mr. Beck. He was not alone in this repudiation of his obligations. If there was anything in Mr. Beck's personal character and habits, in his private conduct or public career and record to justify this action upon the part of Captain Henry and his associates, we would be the last to condemn him or to reproach him for it—for we have always contended that, at the polls as in the Legislature and in Congress, every man must be responsible for his own vote, and he cannot serve himself behind the decision of a convention or a caucus from all that follows the placing by his vote in an unworthy and disreputable man in a position of honor and trust. If there was any such ground for this repudiation of his pledge in case of James B. Beck, we are in ignorance of what it was. As it seems to us, it was only from *jeune* that he could not accomplish his own ends, and had been fairly outwitted and outgeneraled. In either event, however, it hardly lies in the mouth of Capt. Henry or his friends, in view of such a record as that, and of his conduct in Louisville, to heap abuse upon such Democrats as, governed by their own convictions of what is due to themselves, to the community, and to the principles of public morality which ought to obtain, even to that they have been shamelessly held at naught in the past, may choose to raise this name against their tickets in August.

Willoughby Read.

This profound scholar, and eloquent, appeared before a delighted audience at the Capitol Hall last week. He has the rare but happy gift of controlling his hearers. While rendering several of his patriotic pieces "Karl the blacksmith," and "Asleep at the switch," we followed him along until in fancy they were passing before us, and from many pensive faces could be seen the tears slowly chasing each other down when almost instantly could be seen gleams of sunshine at the mere mention of a selection from "Mark Twain," or some other humorous writer, and the scene would change to one of bright faces and uncontrollable laughter. The pleasure of the evening was greatly heightened by the appearance of Professor Reader's recitation soon which will be hailed with delight. Come again, and we will show our appreciation by our presence.

A few of your numerous correspondents find my trouble in gathering up news items. When a school boy is perplexed by some mathematical question or engaged upon work of any kind, he thus gets assistance in rubbing the hand, scratching his head or rubbing his eyes. Now I should like to ask the "Herold" subscribers, if they are ever engaged to resort to this method of providing food for the minds of their enlightened readers to digest. I must conclude, judging from their letters that they do not. It seems they brace themselves with the idea, that as they are the regular correspondents from their respective neighborhoods, that the editors, the neighbors and the citizens of the county, and in fact the world at large should be disappointed if they fail to have a letter in the HERALD, so without any forethought they go to writing—nothing.

Democratic State Central Committee.  
The Democratic State Convention which met in Frankfort in January, 1882, provided the following organization for the Democratic party of the State of Kentucky:  
First, A State Committee composed of one committee man for each Congressional district.  
Second, A State Central Committee composed of seven representatives selected from the State at large.  
At a recent meeting of the State Central Committee, held at H. A. E. Richards' residence, assigned, and H. A. E. Richards was chosen Chairman in his place, and J. M. Wright was elected to the vacancy in the committee then created. At the same time Hon. W. R. Mendenhall resigned from the committee and Hon. W. J. Stone, of Lyon county, was elected in his place. The creation of a new Congressional district necessitating an increase in the State Committee, Hon. James H. Mulligan, of Fayette, was elected a member of said committee.

THE PUBLIC SCHOOL BILL.  
Remarks of Hon. R. A. Briggs on the Same.  
The recent decision of the United States Court, declaring the school law of Kentucky unconstitutional, created the necessity for a revision of the law. To do this is the plain duty of the Legislature. But there were so many moral cowardice in our late Legislature that it failed to discharge its duty and in lieu thereof passed a bill leaving the responsibility of the school fund to a vote of the people. The folly of this action is apparent to all. Should a majority of the people vote in the negative on this proposition, then the colored population will claim an equal division of the fund, and may also claim the right to share the use of the school property now used exclusively by the whites—the result being endless litigation. When the school bill was under consideration Hon. R. A. Briggs, of Nelson, saw the folly of the measure, and thus expressed himself on the same.  
I regard the bill as not worth the paper upon which it is written. It is a sham and a fraud. It is a cowardly shuffling of a duty, that to my mind, is as plain as the sunshine at high noon from a cloudless sky. If by virtue of the amendments to the Federal Constitution, the colored man is a political sovereign—vested with complete political equality—then he is what you call a citizen of the United States. He is entitled to all the rights and privileges which under the law belong to other children of the Commonwealth. I can truthfully say that I did not in the least contribute to the political rights which the colored man now enjoys. I was a private soldier on the other side of the contest which resulted in his emancipation. But I bow to the inevitable and am ready to discharge my duty as I conceive the exigencies of the times demand. There is but one of two courses left us. One is to abolish our common school system; the other is to equalize the school fund between the white and colored children. The former is not worthy a moment's consideration. The common school is a fixed institution, growing out of a civilized civilization of the nineteenth century. The tendency of the times is to enlarge and perfect, rather than to overthrow that system. Our duty is plain and unmistakable, and that is to equalize the school fund, levy additional tax of two cents on each one hundred dollars worth of property, in order that the amount *per capita* may not be decreased. This bill amends the existing law, and shifts from the Legislature its imperative duty. I regard it as a miserable shuffling, and shall vote against it. —Nelson Record.

Beats Fiddling.  
A music teacher once said that the art of playing the violin required the most perception and sensibility of any art in the world. We deny the assertion, to publish a weekly newspaper and make it pay, and at the same time making it please everybody, beats fiddling higher than a kite. —Herald Democrat.

We print on the first page of today's *New Era* the testimony elicited in the Henry investigation, the action of the State Central Committee, and the editorial comments of Mr. Watterson. Every charge made against Capt. Henry was thoroughly investigated and the facts were brought to light by the searching enquiry of the committee. —Herald Democrat.

To a reflecting man, a man disposed to do his own thinking, the above sounds like a burlesque. In the first place there was no "investigation" worth the name. A few *capit* statements, in which there was no cross-examination and which embodied a few non-committal negative assertions, such as "I did not see him," or "he did not tell me," and such like twaddle that would have been laughed out of court, were obtained, but every intelligent man who has read enough of the Henry matter to form an opinion about it is compelled to acknowledge that the "investigation" was a parody on the word, and did not investigate but suppress, and that the action of the committee and Mr. Watterson's brilliant editorial have an equal weight with one who is disposed to see things as they are, and not as a "boss" says they are. "All the facts were brought to light by the searching enquiry of the committee." Bah! We are sick and tired of such nonsense, but we are no longer surprised at such exhibitions of flattery and party lying; we have seen so much of it that we have grown accustomed to it. Why doesn't the *Era* have the manliness to stand up and give the whole case to its readers? It is to be for the truth, and professing to "speak the whole truth," why suppress it? Shuts of truth will fall from these suppression of innocence. This suppression is a confession of guilt, held in the guilt of Capt. Henry; it is not to be told, but Henry himself went to King, the clerk, and obtained a "Statement" concerning his first visit to the hotel. It was carefully trimmed and pruned, and really amounted to nothing. Following is the statement of W. D. King: "Capt. T. J. Henry came to the Willard Hotel on the night of the 28th of March last, between 11 and 12 o'clock. The ladies had then all retired to their rooms. Capt. Henry was intoxicated, but did not make any exposure of his person. His dress was somewhat disarranged. He was always talkative and did not wish to go to bed." I had some beer brought to him, which he drank and then went to bed." King was twitted; his "statement" did not accord with what he had repeatedly stated on the streets. Becoming sore on account of this, he made a sworn statement concerning Henry's first visit to the hotel, and gave it to the public. That affidavit relates things to course and how to appear in these columns, but no allusion to it has yet appeared in any of the white washing sheets. "All the facts were brought out in this searching investigation." Before these charges attracted general attention, the *Courier-Journal* said: "Capt. T. J. Henry left for home early on Monday on the Louisville Mail line packet. His visit to this city was not a profitable one to our readers, as a fact which will probably be emphasized before the matter is dismissed from public attention." Of course "I did not want to say it," and now "takes it all back." An ounce of civet, good apothecary to sweeten the air. —Herald Democrat.

He Should Resign.  
The Democratic State Central Committee met at Louisville and investigated the charges against Thos. J. Henry, and report that he has not been guilty of an offense for which he should be set aside. A very large number of the Democrats of this State disagree with that idea, and say that Thos. J. Henry should step down and out and we hope he will have the decency so to do. We have no desire to see him humiliated by being forced off the track, and arranged he has this opportunity afforded him to resign his candidacy voluntarily. —Herald Democrat.

The Man To Succeed.  
A man to succeed, and especially a statesman, must not be afraid to advance ideas which conflict with the old worn out schemes of the past; they must not be afraid to face the consequences of such action, and to boldly champion it, and stand up for it. They must not be afraid of the ordinary jostling and work for the people in a just, enlightened way, and they must not be afraid of those measures which grind the people down to the dust and render them the slaves of a few wealthy monopolists. In public life nothing is more actively must be directed to the affairs of the people, and the political man must know something, do it boldly, and have the courage to persevere in their course. All politicians should be statesmen, and should dispense with those ideas characterized by stagnation and caution used by the masses. We should have men in Congress to represent the opinions of the people who have broad enlightened ideas about economy and justice, and who are god-fearing, live, intelligent men, even advancing the cause of the people. —Herald Democrat.

Let Henry Resign.  
There is a growing demand that Capt. Thos. J. Henry resign his nomination as Democratic nominee for Appellate Clerk. If he is sincere in his declaration that he will do what is best for the party, then he should not hesitate to take this step. Several of the most influential Democratic paper in the State have positively refused to support him; hundreds of the most thoughtful and consistent Democratic voters of the Commonwealth are indignantly opposed to him, and his further continuance on the track will prove a stumbling block to the party, and result in reducing its majority. If not causing its defeat. The examination of his case by the State Committee, shows that the charges against him were first made by Democrats who had intended to vote for him. This fact and his own admissions of misconduct rob him of his usefulness as a party leader, and it cannot be expected that the Democratic party of the State will defend him, therefore he should resign at once. —Nelson Record.
